Prof. V.A. Koptug
Coordinator of Chemistry and Environment
Programme

27 May 1992

To: Dr. A. Hayes

Chairman of CHEMRAWN Committee

ICI, Surrey, UK

Fax: 8-10-44 (428) 655123

Dear Alan,

A representative of ICI in Moscow has transmitted a copy of your fax dated April 27, 1992. I have not received it since you have used fax number (095) 230.20.44 instead of .43. Now the fax 230.20.43 is disconnected and it is necessary to use number (095) 230.26.30

On your questions I can give the following answers. It is not easy to organize such conferences in falling to pieces country. Nevertheless many difficulties are now behind and we start to distribute a package of CHEMRAWN-VIII information materials including the agreed version of programme. You should receive it two-three days later.

In that package there is information how to get visas.

We send all information also to Prof. J. Donnet, Prof. A. Fischli, Prof. E. Arzywa, Prof. F. Kuznetsov, Dr. R. Marchessault, Dr. R. Pariser, Prof. J. Thomas

and Dr. D. Wyrsch.

To whom else from peoples connected with CHEMRAWN Committee I should send full package of information?

After examination of CHEMRAWN-VIII informational materials, please, tell me when you prefer to have a meeting of the CHEMRAWN Conference Committee in Moscow. The arrangement of a room will be of course made.

My limitations:

May 30 - June 17 - UNCED in Rio-de-Janeiro
August 25 - 31 - SCOPE Executive Committee
in Paris

Difficulties with hard currency continue to exist but I am sure that I will overcome them in respect to invited speakers. So now I am quite optimistic.

I apologize for a long period of silence but only now I can say - the Conference will be!

With best wishes

Sincerely yours
Valentin Kopyug.
