Dear Dr. Mykletun,

I have received summary pages relating to the Bergen Conference which are distributed among ASCEND-21 participants. They are interesting for me in connection with organization of CHEMRAWN-VIII Conference (announcing letter is enclosed).

I am asking your recommendations on possible persons who might to prepare summary reports on Group 3 (Economics of Sustainable Development) and Group 4 (Integrating Scientific Disciplines...) in application to subject areas of A and E of CHEMRAWN-VIII Programme taking into account specific aspects of chemical branches of industry. May be You will find it possible to prepare yourself, as the Secretary General of that Conference, a combined report for subject area A?

I look forward to hearing from you soon,

Sincerely yours Valentin Koptug
