14th February 1991

Dear Alan,

After my returning from Sevilla (VIIIth SCOPE General Assembly) I have received your letter of December 20, 1991. Your recommendations for invited speakers almost completely coincide with my vision (see enclosed copy of tentative programme).

Exclusions are:

Dr. Albert E. Fry (N10) is not included in list of invitation since he has not accepted my preliminary proposal. He is now the Director of Secretariat of Business Council for Sustainable Development in Geneva.

Dr. Karl-Heinz Narjes (N13) is in reserve (cf. the topic of Dr. Gerald Hinteregger, N4)

Dr. William A. Sonntag (N21) is not included since I do not have his address (but cf. the topic of Prof. Dr. H.-W. Lieber, N17)

Mr. Gerald Kotas (N22) is in reserve (cf. the topic of Mr. William K. Reilly, N28)

Mr. Frank Joyce (N25) is in reserve (cf. the topic of Mme J. Aloisi de Larderei, N23)

Mr. Robert Bringer (N33) is in reserve (cf. the topic of Dr. Joseph T. Ling, N1)

Dr. G. L. P. Randall (N40) - it seems me that area of his activity is out of main subjects of CHEMRAWN-IV. May be I am wrong?

Yesterday I have sent letters of invitation to all persons mentioned in the tentative programme (a copy is enclosed)

Pulp and Paper Industry as well as Aluminium and other Non-Ferrous Industry have a special interest for Russia. Therefore we included in the tentative programme sections (sessions) D-3 and D-4.

With best wishes.

Sincerely yours

V. Koptysov
